## BLOOMFIELD

FOR THE

Year Ending March 1st, 1896.

---

BLOOMFIELD, N. J.,

William A. Ritscher, Jr., Printer, 314 & 316 Glenwood Avenue.

1896

TO THE INHABITANTS OF THE TOWNSHIP  
OF BLOOMFIELD.

—o—

*The Township Committee presents the following Report  
for the year ending March 1, 1896.*

—o—

FINANCES.

The expenses of the township have been carefully guarded during the past year, and wherever possible not permitted to exceed seventy-five per cent. of each specific appropriation. This course was adopted because of the uncertainty of revenue to be derived from taxes levied on property situated within the boundaries of the borough attempted to be created within our township.

The revenues of the township derived from taxes levied in 1895 amount to \$62,778.07 being \$36,602.78 less than the total amount of the levy. Notwithstanding this large deficit in revenues, and the expenditure of \$3,973.61 in our efforts to maintain the integrity of our territory, we close the year with an

addition of only \$5,000 to the amount of our indebtedness upon township notes issued for general township purposes.

The financial standing of the township is excellent and were it not for the disturbing borough controversy, your committee would strongly recommend for your consideration, very liberal expenditures for public improvements; the funds therefore to be derived from an issue of township bonds. This question should have the prompt and earnest attention of our citizens, as soon as they are in a position, without controversy to legislate for our whole territory.

The recommendations of this committee covering the appropriations for the coming year will be found on the last page of this report.

## HEALTH.

The general health of the township has been satisfactory during the past year. The East Orange Disposal Works which has so long been a menace to our township, and a grievous nuisance to our citizens, has been abandoned. Further material extensions of the lateral sewers in our streets have been made during the year, and we recommend as a sanitary measure the completion of the sewer system as originally laid out with as little delay as possible.

The report of our Health Physician is presented herewith:

### *To the Board of Health of Bloomfield:*

I beg to present the following report for the year ending April 1st, 1896. On the organization of the board, a year ago, several new propositions presented themselves to us, viz.: A new sanitary code for the township. A better mode of keeping our vital statistics. A report of contagious diseases from the different physicians in conformity with chapter C. C. L., laws of 1895, approved March 22, 1895. The pla-

carding of houses containing cases of the most dangerous of contagious diseases, namely diphtheria, small pox, scarlet fever and measles. The removal of garbage, and the licensing of scavengers to engage in the work. The disposal of night soil and other delaterious substances, and the extension of the sewer system, so that the school houses might be put in a proper sanitary condition,

The different questions were taken up in the order enumerated. A new health code, after due publication was adopted. The clerk of the Health Board appointed registrar of vital statistics, to whom all reports of contagious diseases are sent within twelve hours after the first visit of the attending physician.

The adoption of a resolution ordering the placing of a card on houses containing anyone of the four diseases mentioned, not to be removed, except by an officer of the board, under a penalty of fifty-dollars.

And the licensing of scavengers, and compelling their wagons to be covered, to prevent as much as possible the spilling of ashes and garbage in the streets.

The question of extending the sewer system, was one of the most important brought before the board. Without such extension it would be impossible to relieve the unsanitary condition of the several school buildings, especially the high school. After due deliberation it was voted to request the Township Committee to order the work done. We are now in a position to have plumbing put in the school houses and connections with the sewer made, as a matter of fact, Berkeley School is already finished in this respect.

Early in September an isolated case of scarlet fever was reported, and efforts made to check the disease; but after a few weeks another case occurred, and from that day to this the Township has never been free from the disease; As the schools are largely the spreaders of contagious diseases among children, and some are so criminally careless as to conceal cases, or to send other children from such families to school. I had postal cards printed, and when a case was reported, immediately notified the school authorities of the fact, and that all children from such families were to be refused, until they brought a certificate from the attending physician, countersigned by me.

In spite of all our precautions the number of contagious diseases have been large as the appended table will show. Later the Board authorized the purchase of a disinfecting spray pump, which is now used by the Health Inspector in places where Scarlet Fever and Diphtheria have been present.

There have been fifteen cases of Diphtheria, several of these have been subjected to bacteriological examination. Six have been croup cases (the most fatal kind) all these have been treated by antitoxin injections, and recovered. Some of the others had antitoxin, some not; that all recovered is a most fortunate showing. Otherwise the health of the Township has been good.

Finally I wish to thank the members of the Board for their kindness and courtesy, and to testify to the faithfulness of the Inspector and Registrar.

CHAS. H. BAILEY,  
Health Physician.

#### REPORT OF VITAL STATISTICS FOR THE YEAR ENDING APRIL 1ST, 1896.

	CASES.	DEATHS.
Scarlet Fever.....	70	3
Diphtheria.....	15	
Measles.....	37	
Chicken Pox.....	16	
German Measles.....	3	
Whooping Cough.....	13	
Typhoid Fever.....	6	2
Tuberculosis.....	2	1
Membranous Croup.....	1	1
From all Other Causes.....		97
Total.....	163	104

148 Births and 64 Marriages have been reported during the year.

Ratio of deaths to population, 13 in one thousand.

WM. L. JOHNSON,  
Registrar Vital Statistics.

#### WATER.

Under the contract with the Orange Water Company our citizens have enjoyed a full and constant supply of excellent water during the year. The bill of the water company, covering their charge for all the hydrants within the township, including forty-four located within the borough limits, has

been paid out of township funds, if, however, we are to be deprived even temporarily of revenues from taxes levied within the borough limits it will become a serious question what action your committee should take as to the payment for hydrants located therein. During the year 13,196 feet of water pipe has been laid in our streets and sixteen hydrants have been placed thereon.

Total pipe line now in streets, - - 33 4-5 miles.

Total number of hydrants, - - 205

45 hydrants being within the limits of the borough.

#### LIGHT.

During the year a contract for five years has been consummated with the Suburban Electric Light Co. of East Orange for the lighting of our streets with electricity, the plant to be in operation the first of May. By this contract there will be substituted for the present unsatisfactory gas service from dusk to midnight what we confidently anticipate will prove a most satisfactory electric service from dusk to daylight covering all the territory of the township (exclusive of that territory within the boundaries of the Glen Ridge borough) now covered by the gas service together with that portion of Bloomfield Avenue not now lighted. The increase cost to the township being estimated at \$673. To cover this district we have contracted for the placing of 75 arc and 140 incandescent lights. The appropriation recommended for lighting purposes will provide for a material increase in the number of lights above mentioned.

#### POOR.

Those of our citizens who through misfortune or sickness

have been compelled to call upon the township for assistance, have continued to receive considerate and liberal aid from the township poor fund the amount expended having been \$2,922.66.

#### POLICE DEPARTMENT.

When the borough officials established a police force your committee decided to withdraw the township police supervision of that district. Notwithstanding this very material reduction of the territory covered it was considered unwise to decrease our force which still consists of six regular officers and one extra officer on duty on Saturdays and Sundays.

We congratulate our citizens on the exemption of the township from serious depredations by the criminal classes which we believe is largely, if not entirely due to the efficiency of our police department.

We would recommend a change in the conducting of our police justice's court. At present our police justice receives his compensation from costs charged against parties brought before the court, the fines imposed being turned into the township treasury. In most cases the offender is not able to pay both fines and costs, resulting very often in the release of the prisoner on the payment of costs. The total amount of fines received by the township for the past year having been \$83. We believe the interests of the township would be benefitted by making the police justice a salaried officer. All fines and costs imposed to be reported monthly and the money collected turned over to the treasurer.

131 arrests have been made during the year. 73 of these have been sentenced to various terms of imprisonment, or fined. 58 have been discharged, and 5 lost children returned to their homes.

#### MONTGOMERY STREET BRIDGE.

We are happy to report the completion of the bridge over the canal at Montgomery Street. While there were differences of opinion among our citizens upon the propriety of using public funds for this purpose, we think all will agree that the work has been well done. Of the fund appropriated for this purpose there remains a balance unexpended of \$32.51.

#### PUBLIC GROUNDS.

Our citizens have been distressed the past few years by witnessing, what seemed to be, the gradual destruction of our stately elm trees on our beautiful Green and throughout the town, by that detested pest—the Elm Beetle

The adult beetle, a flying creature, lives through the winter in any sort of shelter, attics, barns, &c., and awakens into activity quite early in the spring just as soon as the elms themselves begin to put forth their leaves, beginning its work eating little round holes into the new foliage, appearing as if punctured by small bird shot; soon after will be found on the under side of the leaves, double rows of yellow bottle shaped eggs, from which hatch, in due time, the ugly slugs which do the main injury on the trees by scraping the leaves, chiefly from the under side; not eating entirely through the tissues as beetles do, but simply the juicy cells of one surface, leaving the leaf in a condition to dry readily as soon as the sun becomes hot, and to die and droop before midsummer; by that time the larvæ are ready to change their condition, and crawl down the trunk in enormous numbers and on the surface of the ground.

In a few days these little yellow creatures regain their life in

the form of a second brood of beetles which manifest vitality enough to complete the destruction of the foliage before going into winter quarters.

In all its stages the insect feeds exposed upon the leaves of the tree, and is therefore a fit subject for poisons which act through the stomach, so by covering the foliage with poison the insects can be killed.

Correspondence was had last spring with Prof. Jno. B. Smith, Entomologist of the New Jersey State Agricultural College Experiment Station, who courteously furnished us with a formula for a poison, harmless to the trees, to be sprayed on the trees; and also manner and mode in which the spraying should be done. The committee entered into the work, but with the limited funds, for this purpose, at its disposal, could not carry out the purpose to the extent desired. What we accomplished, the following answer in reply from an enquiry from Prof. Smith, may, perhaps, give: "While we did not meet with the success hoped for, we feel encouraged to a degree sufficient to warrant that renewed effort be made another season, under the same system, but with better facilities, that experimental practice this season has suggested; our elm trees are numerous and generally of large growth, and with our crude means of operating, our work was slow and not altogether effective. We think, with better appliances—portable steam power, instead of hand, to operate pump; and large tank instead of barrels; and machine, for that purpose, to mix emulsion, we would then show better results."

The committee would ask for an increased appropriation.

The Public Grounds Committee feel it important that curbing should be placed about the Park where it is not now placed, but if it is thought not advisable to do it all the present year, then certainly to curb that part of the Park north of Belleville Avenue; the absence of curbing there, leaves no division mark between the streets and Park; consequently vehicles of

all kinds make use of that part of the Park, robbing it to a large extent, of its beauty.

During the past year meetings were held by the Township Committee in conjunction with ten of our representative citizens, making a committee of seventeen, to consider the location of Public Parks and Driveways, and urge the adoption of same by the Essex Co. Board of Park Commissioners, appointed by act of Legislature.

The sites recommended were, the property formerly known as the "Watsessing Lake Property," and the lands of about five hundred acres, bounded by Franklin Avenue, Morris Canal, and Broad Street, lying in the northern part of the township.

Maps, plans and data of the proposed parks and driveways were carefully prepared by a sub-committee, consisting of the Public Grounds Committee and three of the citizens, and subsequently presented by the committee of seventeen, with additional number of our citizens, to the Park Commissioners at a meeting, held at their office in Newark, specially appointed by the Park Commissioners for the purpose. The natural and unusual advantage for Parks, etc., in the sites selected and proposed, seems so desirable that the Committee feel reason to hope that favorable conclusion will be reached by the Park Commissioners.

## LEGAL AND FRANCHISE.

The Legal and Franchise Committee the past year has had a great deal of time engrossed to the large volume of business necessarily to be considered from borough litigation—franchises and election for creation of city from township. The several matters of such importance have required frequent meetings of the Committee, which were also attended by the chairman of the Township Committee, consultations with counsel and others. It is to be hoped that the results of these labors will be of lasting benefit to the Committee.

After much controversy as to terms, a franchise was drawn, giving the Consolidated Traction Co. privileges for trolley road on Bloomfield Avenue, from the city line to Liberty Street, and while concessions were made by the Traction Co., our claim for transfers was not conceded, and rather than defer for years the building of the road with its admitted advantages to our people, we reluctantly waived the transfer feature, but hope that the company will soon clearly see that it will be to its interest to grant transfers.

An ordinance was prepared, and its consideration by the Town Committee is now pending, on the application of The North Jersey Street Railway Co. for franchise to run electric cars on Bloomfield Avenue, north from Liberty Street; the committee have felt constrained to consider the subject with deliberation before recommending the passage of the ordinance, hoping that arrangements of some kind might be made, in connection therewith, with the Consolidated Co. in matter of transfers, it is fair to say, that the officials of the North Jersey Co. have aided in endeavoring to bring this result about.

A franchise was drawn and passed by the Township Committee giving the Suburban Electric Light and Power Co., the

right to furnish electric lights to our township. The Legal and Franchise Committee, in connection with the Lighting Committee, gave earnest and considerate attention to preparing the necessary ordinance and contract, employing for its aid an unprejudiced expert electrician, in order that definite electric terms might be properly and understandingly used, and clearly expressed, in drawing the documents, and the township know just what it is entitled to, and have no uncertainty by ambiguous terms and liability to consequent dispute. The people are to be congratulated on the favorable contract made, more favorable, we believe, than any adjacent locality.

The litigation now ensuing as to borough matters, and city election, we have reason to hope will terminate satisfactorily to the township's interest.

## ROADS.

There has been no work done on roads this year only in the way of repairs. The following table shows the number of lineal feet of macadamized roads in the Township of Bloomfield and the Borough of Glen Ridge:

TABLE SHOWING NUMBER OF FEET MACADAMIZED ON EACH STREET TO DATE.

Name of Streets.	Feet of 6-in.	Feet of 8-in.	Feet of 4 in
Bay Avenue, - - -	1109

## FIRE DEPARTMENT.

The Fire Department continues to maintain its well established reputation for efficiency and usefulness. It has responded promptly to all calls during the year coming from the Glen Ridge borough. Inasmuch as the property owners therein have not, by the payment of taxes, contributed to the support of the Department, we are of the opinion that its services should be withdrawn from that section.

The report of the Chief Engineer is presented herewith:

*To the Honorable Township Committee of the Township of Bloomfield.*

GENTLEMEN:—As Chief I have the honor to present herewith for your consideration my third annual report, showing the workings of the department for the year ending March 1, 1896:

### MANUAL FORCE.

The total manual force of the department at the present time consists of ninety three officers and men, divided as follows:

One Chief Engineer,  
Three Assistant Engineers,  
One Superintendent Fire Alarm Telegraph.  
Essex Hook & Ladder Company, No. 1: 2 officers 27 men.  
Phoenix Hose Company, No. 1: 2 officers, 19 men.  
Active Hose Company, No. 2: 2 officers, 19 men.  
Excelsior Hose Company, No. 3: 2 officers, 19 men.

### FIRES

During the year the Department has responded to 25 fires and alarms as follows: Box Alarms, 20; Still Alarms, 5; and have been on duty 24 hours and 30 minutes. Following is a list of the same:

DATE.	TIME.	BOX.	LOCATION.	USE.	OWNER OR OCCUPANT.	CAUSE.	LOSS.	INSURANCE.
1895								
March 15.....	8.00 P. M.	34	Park avenue,	Residence,	Mr. Whitcomb,	Defective Chimney	None	
March 17.....	2.35 "	36	Glenwood avenue,	Dwelling,	Unangst Estate,	Supposed Fire,	None	
March 24.....	3.20 "	Still	Broad street,	Dwelling,	F. H. Carl,	Defective Chimney	\$ 10.00	Full.
March 31.....	12.25 A. M.	62	Ridgewood avenue	Barn,	H. L. Johnstone,	Incendiary,	40.00	Full.
March 31.....	12.50 P. M.	63	Midland avenue,	Brush,			None	
March 31.....	2.20 P. M.	67	Glenwood avenue,	Brush,			None	
April 1.....	1.15 "	Still	Glenwood avenue,	Hotel,	Ed. Schwerdt,	Defective Chimney	None	
April 4.....	8.15 "	25	False Alarm.	Residence,			25,000.00	\$17,000.00
April 22.....	12.45 A. M.	45	Broad street.	Boxes,	H. Lindenmeyr's,	Unknown.	None	
April 24.....	4.45 P. M.	36	Glenwood avenue,	Store,	E. D. Ackerman,	Sparks from Fire.	3.00	Full.
May 6.....	11.05 "	36	Broad street,	Store,	C. W. Martin,	Unknown,	15.00	None.
May 20.....	9.20 "	67	Glenwood avenue,	Bakery,	F. C. Bucher,	Sparks from Oven,	3.00	None.
June 15.....	6.45 "	84	Ridgewood avenue,	Station Platform	D. L. & W. R. R.	Sparks from Locomotive	30.00	Full.
August 7.....	10.30 A. M.	23	Berkley avenue,	Residence,	Chas. Farrand,	Unknown,	75.00	Full.
August 31.....	3.40 P. M.	Still	Bloomfield avenue	Church,	Episcopal Church,	Lightning,	None	
September 2.....	11.40 A. M.	69	Dodd street,	Dwelling,	J. Elliot,	Supposed Fire,	None	
September 14.....	1.10 P. M.	Still	Glenwood avenue,	Dwelling,	L. Garnier,	Defective Chimney	None	
September 16.....	12.30 "	47	Broad street,	Old horse car,	Sub. Traction Co.,	Incendiary,	None	
September 24.....	12.30 "	69	Willow street,	Dwelling,	G. L. & R. Co.,	Sparks from Locomotive	150.00	Full.
October 29.....	8.50 "	45	Franklin avenue,	Dwelling,	John Ward,	Defective Chimney	None	
November 12.....	11.40 "	45	Doughlass Road	Residence,	Com. Roll & Rub Co.	Defective Chimney	150.00	Full.
December 6.....	8.45 "	61	Bloomfield avenue	Residence,	A. R. Pierson,	Lamp,	700.00	Full.
December 10.....	10.40 A. M.	37			J. H. Moore,	Thawing out pipes	35.00	Full.
1896								
January 20.....	8.15 "	Still	Maolis avenue,	Residence,	L. L. Cossitt,	Exp. Gasol'e Stove	25.00	Full.
February 9.....	7.10 P. M.	36	Glenwood avenue,	Hotel,	Elliot House.	Lamp,	15.00	None.

# LOSSES.

The losses by fire during the year were	-	-	-	\$26,615
Insurance paid thereon	-	-	-	18,580
Losses not covered by insurance	-	-	-	\$8,035

I consider that our town has been very fortunate in freedom from any serious fires last year. The most serious fire that occurred during the year was the residence of Henry Lindenmeyr, on the morning of April 22, which was totally destroyed, causing a loss of \$25,000. This fire had considerable headway before we received the alarm, and when the department arrived was one mass of flames.

## ROLL OF MEMBERS.

Following is a complete roll of the assistant engineers, officers, and members of the several companies:

### ASSISTANT ENGINEERS.

Bernard F. Higgins, 1st Asst. John Weden, 2d Asst.  
Wm. R. Rawson, 3d Asst.

### ESSEX H. & L. CO., NO. 1.

Wm. L. Johnson, Foreman	Chas. A. Keyler, Asst. Foreman.
Frank G. Tower,	J. H. Hardcastle,
Lewis Dawkins,	Thos. E. Hayes,
S. P. Gilbert,	Wm. U. Oakes,
E. D. Ackerman,	T. Howell Johnson,

Wm. R. Rawson,	John W. Rawson,
	Emil Raemsch.

## INVENTORY.

Following is an inventory of the property belonging to the town-ship contained in each fire house:

### Essex H. & L. Co., No. 1.

1 Holloway H. & L. Truck (property of Essex H. & L. Co.).  
1 55-foot Bangor extension ladder.  
1 35-foot ladder.  
1 set double swinging harness, complete.  
4 Babcock 3 gallon extinguishers.  
3 doz. charges for extinguishers.  
1 door-opener.  
1 tin-roof cutter.  
1 life belt.  
1 electric wire cutter.  
200 feet 3/4-inch rope, 100 feet 1-inch rope.  
20 feet iron chain, 6 lanterns.  
1 indicator, 1 electric clock.  
1 large stove, 1 large iron hay-fork.  
1 ton of coal, 1 coal shovel, 1 pail, 2 brooms.  
1 wagon jack, 1 mop, 1 snow shovel.

# LOSSES.

The losses by fire during the year were	-	-	-	\$26,615
Insurance paid thereon	-	-	-	18,580
Losses not covered by insurance	-	-	-	\$8,035

I consider that our town has been very fortunate in freedom from any serious fires last year. The most serious fire that occurred during the year was the residence of Henry Lindenmeyr, on the morning of April 22, which was totally destroyed, causing a loss of \$25,000. This fire had considerable headway before we received the alarm, and when the department arrived was one mass of flames.

## ROLL OF MEMBERS.

Following is a complete roll of the assistant engineers, officers, and members of the several companies:

### ASSISTANT ENGINEERS.

Bernard F. Higgins, 1st Asst. John Weden, 2d Asst.  
Wm. R. Rawson, 3d Asst.

### ESSEX H. & L. CO., NO. 1.

Wm L Johnson, Foreman	Chas A. Keyler Asst. Foreman.	
Frank G. Tower,	J H. Hardcastle,	C. E. McDowell,
Lewis Dawkins,	Thos E. Hayes,	Geo M Wood,
S. P. Gilbert,	Wm. U. Oakes,	Thos Hayes,
E. D. Ackerman,	T. Howell Johnson,	C W. Powers,
Chas. H. Ashley,	Wm. H. Davis,	J. R. Marshall
Chas. A. Davis,	Wm. H. Linder,	Chas. H Johnson,
Geo W. Cadmus,	Wm. H. Van Gieson,	Geo. W. Heath,
J. Milton Unangst,	Nicholas Van Sant,	F. N. Unangst,
Chas. P. Linder,	A. M. Stager.	Jules Magory

### PHOENIX HOSE CO., NO. 1.

M. N. Higgins Foreman.	W. Van Riper, Asst. Foreman.	
B. F. Higgins,	H. J. Ashley,	S. Westervelt,

	Emil Raemsch.	

## INVENTORY.

Following is an inventory of the property belonging to the township contained in each fire house:

### Essex H. & L. Co., No. 1.

1 Holloway H. & L. Truck (property of Essex H. & L. Co.).  
1 55-foot Bangor extension ladder.  
1 35-foot ladder.  
1 set double swinging harness, complete.  
4 Babcock 3 gallon extinguishers.  
3 doz charges for extinguishers.  
1 door-opener.  
1 tin-roof cutter  
1 life belt.  
1 electric wire cutter.  
200 feet 3/4-inch rope, 100 feet 1-inch rope.  
20 feet iron chain, 6 lanterns.  
1 indicator, 1 electric clock.  
1 large stove. 1 large iron hay-fork.  
1 ton of coal, 1 coal shovel, 1 pail, 2 brooms.  
1 wagon jack, 1 mop, 1 snow shovel.

1 bottle axle oil, 2 blankets.  
50 feet  $\frac{3}{4}$ -inch rubber hose.  
Duster, sponges, chamois, etc.

Phoenix Hose Co., No. 1.

1 hose wagon, shafts, and pole.  
1 set swinging harness, 1 blanket.  
100 feet  $\frac{3}{4}$ -inch rope, 1 axe, 1 crowbar.  
2 nickel-plated lamps, 3 lanterns.  
1 hydrant gate, 1 Siamese connection.  
3 controlling nozzles.  
1 jumper, in first-class condition.  
1,800 feet good hose, 1 snow shovel.  
9 hose spanners, 5 butt straps.  
2 large hydrant wrenches, 2 small wrenches.  
1 wagon jack, 2 iron hose jackets.  
1 indicator, 1 desk, 9 settees, 1 coal shovel.  
6 chairs, 1 large stove, 16 lengths stovepipe  
7 gas fixtures, 1 wash basin, 1 ton coal, 1 broom  
50 feet  $\frac{3}{4}$ -inch rubber hose, duster, sponges, chamois, etc.

Active Hose Co., No. 2.

1 hose carriage.  
1 axe, 1 crowbar, 3 hose straps.  
2 controlling nozzles, 3 hydrant wrenches.  
1 hydrant gate, 1 hose jacket  
8 spanners, 2 lanterns, 1 table, 1 large stove.  
1 four-jet chandelier, 3 chairs, 3 settees  
1,250 feet good hose  
1 wash stand and marble slab  
1 indicator, 1 wagon jack, 2 brooms  
1 bell in tower,  $\frac{1}{2}$  ton coal, 1 oil can.  
50 feet  $\frac{3}{4}$ -inch rubber hose, 50 feet  $\frac{1}{2}$ -inch rope.  
1 shovel, 1 pail.  
Duster, sponges, chamois, etc

Excelsior Hose Co., No. 3

1 hose carriage, 1 axe, 1 crowbar, 1 wagon jack.  
2 hydrant wrenches, 5 hose spanners.  
2 hose jackets, 5 straps.  
50 feet  $\frac{3}{4}$ -inch rubber hose.

2 controlling nozzles, 1 hydrant gate.  
1 indicator,  $1\frac{1}{2}$  tons coal, 1 broom.  
3 lanterns, 2 pails, 1 snow shovel.  
1,150 feet good hose.  
1 jumper, old, of no use.  
Duster, sponges, chamois, etc.

THE FIRE ALARM TELEGRAPH SYSTEM.

August F. Olsen, Superintendent.

We have 28 street boxes, located as follows:

- No. 22 Montgomery Avenue and John Street.  
23. Park Avenue and State Street  
24 Montgomery Avenue and Franklin Street.  
25 Park and Monroe Place.  
26 Liberty and Spruce Streets.  
27. Montgomery and Williamson Avenues.  
28. Orchard Street and G. L. R.R. station.  
29. Franklin Street and Berkeley Avenue.  
34. Bloomfield and Ridgewood Avenues.  
35. Bloomfield Avenue and Liberty Street  
36 Glenwood and Washington Avenues.  
37. Bloomfield Avenue and Orange Street.  
39 Bloomfield Avenue, opposite Berkeley School.  
42. Highland and Glen Ridge Avenues.  
43. Ridgewood Avenue and Osborne Street.  
44. Franklin and Bay Avenues.  
45. Broad and James Streets.  
47. Broad and Maple Streets.  
48. Belleville Avenue and Oak Street,  
49 Belleville and Williamson Avenues.  
61 Lincoln and Summit Streets.  
62. Ridgewood and Linden Avenues.  
63. Linden and Ashland Avenues  
65 Washington and Hillside Avenues.  
66 Washington Avenue and Thomas Street.  
67. Glenwood and Linden Avenues.  
68 Prospect and Willow Streets.  
69. Orange Street and D., L. & W. R.R. station.

#### INVENTORY.

The following is a list of the tools and supplies in the battery room :

74 cells of battery, 15 zincs, 2 coppers, 2 jars, 1 brace, 1 saw, 1 broadaxe, 1 lantern, 1,200 feet Bishop wire, 50 insulators, 2 screw drivers, 1 crowbar, 2 sets pliers, 1 hammer, 1 8-inch tapper, 1 5-inch tapper, ½ dozen brackets, ½ dozen split insulators, 100 feet house wire, 2 auger bits, 1 pair climbers, 1 vise and strap, 150 lbs. blue stone, 50 lbs No 9 wire, 3 dozen binding posts, 2 pails, 1 scoop, 1 mop and handle, 1 two-circuit switchboard, 1 gas stove, 1 set rubber gloves, 1 pair splicing pliers, 1 50-foot rope, 1 soldering set.

The following are connected with the fire alarm system :

- 1 2,200-pound bell (property of Essex H & L Co.).
- 1 automatic striker, attached to bell.
- 1 small bell in tower of Active Hose Co.
- 1 8-inch fire whistle, on National Paper Mill.
- 5 Gamewell automatic indicators.
- 2 small tappers.
- 1 electric clock.

#### HOSE.

We have now in use in our department 4,200 feet of 2½ inch rubber-lined cotton hose, in good condition. During the year we have purchased 1,000 feet of the above, which was badly needed. We have not the proper facilities for drying our hose, and I desire to again call your attention to the necessity of a hose drying tower. This will greatly protect and preserve our hose, which will be in a more serviceable condition at all times. The abuse of driving over our hose while working at fires has been stopped to a great extent, and for this reform we feel very thankful to the members of our Police Department.

#### APPARATUS

The apparatus in active service is as follows :

- 1 hook and ladder truck.

- 1 hose wagon.

- Two four-wheeled hose carriages

- Reserve apparatus.

- 1 two wheel jumper.

The above apparatus, with the exception of needing a few slight repairs, is in good condition.

During the year we have added a few needed tools to the Truck, consisting of tin roof-cutter, door-opener, life-belt, and electric wire-cutter.

#### FIRE ALARM.

Our fire alarm system has been successfully operated during last year, and is in good condition, three new boxes having been added. This certainly is a good showing for the year and denotes progress in the right direction ; a few years at this rate would soon give us the required number of boxes, and our town would be well protected in this respect.

#### OVERHEAD WIRES.

It is now generally acknowledged that overhead wires are the most dangerous obstruction that our Department has to contend with at the present time. The centre of our town is fast becoming a net work of wires of all kinds.

It is also necessary that great care should be taken to see that all electric light wires are properly insulated when placed inside of buildings.

The Traction Company should be required to place guard wires over their electric wires through our town. I would also call your attention to the wires that are strung through the streets of our town on trees, by private parties, they should not be allowed.

#### WATER SUPPLY.

Our water supply for fire purposes, I consider excellent,

as we have a good pressure in all parts of our town at all times.

We have now in use 205 fire hydrants, 16 of these have been added during the year. This also has greatly improved our facilities for fire purposes. I feel that our water supply is being improved year by year to meet the growth of our town.

### DISCIPLINE.

I desire to make a few suggestions in reference to the discipline of our department. While the discipline is good, yet I think it can be improved in certain respects.

I wish to call the attention of our officers and members to the fact that while in active duty no orders will be received or obeyed except those given by the officers in charge. All persons desiring to assist in giving orders must be politely referred to the officer in charge before the same can be executed or obeyed. I mention this fact in justice to ourselves; as we are held strictly accountable for the management of the Department and the extinguishing of fires.

### RECOMMENDATIONS.

I would recommend the placing of three new fire alarm boxes at the following locations: Broad Street and Bay Avenue, Bloomfield and Watsessing Avenues, Newark Avenue and Harrison Street.

I again wish to call your attention to the necessity of this town owning its own fire houses. The houses now occupied are all leased, and, with the exception of the one

occupied by Excelsior Hose Co., No. 3, are not fit to be called fire houses, having long since outgrown their usefulness.

We should have a general fire headquarters, situated in the centre of the town where No. 1 Truck and No. 1 Hose could be located a bell and hose-drying tower combined. No. 2 Hose should be located on Orange Street, near Cross Street, and I should by all means recommend the buying of the present house occupied by No. 3 Hose Company.

I think that you will find by adding the amount paid for rent and repairs on the several fire houses during a year, will amount to more than the interest on the above plan I have recommended, and not only that the Department will be suitably housed, and the town will own its fire houses, which I have felt they should do for a long time. I would recommend \$3,500 for general fire purposes for the coming year.

### CONCLUSION.

Before concluding this, my third annual report of the Bloomfield Fire Department, I wish to extend to the officers and members thereof my sincere thanks for the faithful manner in which they have performed their duties during the year, and for the kind and courteous treatment I have received at their hands.

I also extend to your honorable body my sincere thanks for the many courtesies shown me by you while in the discharge of my duties, and your willingness at all times to aid us by furnishing such needed improvements as the

organization of this Department has demanded from time to time.

My thanks are extended to all persons who so generously subscribed, decorated, and help make the Fireman's Convention, held here on September 25th, 1895, the success it was.

Respectfully submitted,  
WILLIAM U. OAKES,  
Chief of Fire Department.

#### IN GENERAL.

In the annual report presented last year you were advised of the attempt to create the Borough of Glen Ridge within our township, and that the "validity of the proceedings was contested by the township before the courts." We regret very much to inform you that we have not been able to have this question decided by the courts owing to the refusal of the Attorney General of the State to authorize action by writ of quo warranto, the courts having decided such writ to be our only legal method for testing the question. By the election held last August you undertook to create the City of Bloomfield embracing a large portion of the Township, including nearly all the territory within the boundaries of the proposed borough. The constitutionality of the law under which this election was held, and the regularity of the procedure was cited by the borough authorities for review by the Supreme Court of the State, their decision recently given fully sustains the constitutionality of the law, but sets aside the election

on the ground that the territory proposed to be included in the city should have been described as lying partly within the borough of Glen Ridge. Remedying the defect of description as pointed out by the Court, another election would have been held on the 31st inst., but for a stay granted by Judge Depue, upon information that an appeal had been taken to the Court of Errors in behalf of Bloomfield by one of its citizens. This action was, in our judgment, in total disregard of the interests of the township.

The suit of the borough authorities brought to invalidate our tax levy on property within the borough limits, has been decided by the Supreme Court, sustaining the tax levied by the township for school purposes, by which decision the township collector is entitled to receive over six thousand dollars in taxes heretofore withheld. We are advised that the borough authorities have taken an appeal from this decision to the Court of Errors. We feel that material moral and financial benefit has resulted to our township from the litigation growing out of the borough movement. Your Committee have felt that they had your cordial approval, and were acting under your instructions in resisting the consummation of this greivous injury to the township by every proper and legal method. We recommend to the citizens that at their annual meeting, soon to be held, they instruct their incoming committee to continue to oppose the permanent establishment of the Glen Ridge borough.

G. LEE STOUT, Chairman.  
SEYMOUR P. GILBERT,  
JOHN A. LAWRENCE,  
GEORGE FISHER,  
BENJ. HASKELL,  
C. W. POWERS,  
FRANK FOSTER,  
Township Committee.

ATTEST:

WM. L. JOHNSON,  
Township Clerk.

A. C. MARR, COLLECTOR, IN ACCOUNT WITH BLOOMFIELD TOWNSHIP.
